BONNEVILLE LOCK AND DAM PROJECT
PO BOX 150
CASCADE LOCKS OR 97014-0150

March 11, 2016

Mr. Kenneth Lujan
Lower Columbia River Fish Health Center
U.S. Fish and Wildlife Service
201 Oklahoma Road
Willard, WA 98605

Dear Mr. Lujan:

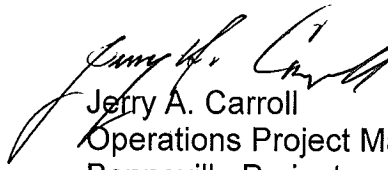

This is in response to your March 3, 2016 letter requesting approval for access to Bonneville Dam's Adult Fish Facility (AFF) and Juvenile Monitoring Facility (JMF). In the AFF you plan to collect up to 150 adult American Shad (*Alosa sapidissima*) and in the JMF up to 150 juvenile American Shad and 500 juvenile hatchery Chinook salmon (*Oncorhynchus tshawytscha*). These fish will be tested and included into the National Wild Fish Health Survey. It is understood that you also request permission to collect any adult fish mortalities that occur at the dam, and that these fish will be examined for pathogens and potential cause of death.

With respect to the work outlined above, your request is generally approved, provided you are able to obtain all necessary ESA and state permits. No work may begin until permits, or an explanation as to why permits are not required, are on file with Ms. Ida Royer and Ms. Tammy Mackey. You will be required to follow all protocols found in the current Fish Passage Plan (FPP) Appendix G - Protocols for Adult Fish Trapping Operations and Appendix J - Protocols for Juvenile Monitoring Facility Operations.

Prior to beginning work, please arrange a meeting with Ms. Ida Royer, 541-374-2541. Please remain in contact with Ms. Royer throughout your time at the dam. There are many researchers and contractors working at the dam; please work to ensure good communication and cooperation between agencies and organizations. In addition to coordinating with Project Fisheries, you will also coordinate collection activities at the AFF with John Whiteaker, whij@critfc.org; and collection activities with JMF Smolt Monitoring personnel Rick Martinson, RMartinson@psmfc.org and Dean Ballinger, deanb@gorge.net.

A copy of this letter has been posted to NWP Access Responses found at <http://www.nwd-wc.usace.army.mil/tmt/documents/FPOM/2010/NWP%20Research/Research.html>. If you have questions regarding this correspondence, please contact Ms. Royer via e-mail or by phone.

Sincerely,

Jerry A. Carroll
Operations Project Manager
